MUHAMMAD JUNAID AMIN

Personal Details:

Address:	H. No.6 S. No.40, Mujahid Abad
	Mughal Pura, Lahore
Cell:	**0324–4517819**
Cnic:	**35201-9313700-1**
Date of Birth:	August 06,1994
Religion:	**ISLAM**
Nationality:	**PAKISTANI**
Email:	**junaid.amin94@gmail.com**
Marital Status:	Single

Career Objective:

To envisage a career in an established and competitive organization.
Where I can fully utilize my skills and experience.

Education:

- **Master of Philosophy in Solid State Physics** (October 2017 – August 2019) from **University of The Punjab**, **Lahore**.
- **B.Ed. (1.5 Years)** 3rd Semester from **Allama Iqbal Open University Islamabad.**
- **Master of Science in Applied Physics** (September 2014 – August 2016) from **University of Engineering and Technology**, **Lahore**.
- **Bachelor of Science in Physics**, **Math A and Math B** (September 2012 – August 2014) from **University of The Punjab, Lahore**.
- **Intermediate in Physics**, Math and Computer (September 2010 – August 2012) form **BISE, Lahore**.
- **Matriculation in Science** (August 2008 – July 2010) from **BISE, Lahore**.

Employment History:

- Stars College's and Academy Mughal Pura Lahore
  (20, May 2016 – 22, October 2017) as F.Sc. Physics Lecturer.
- ALA UD DIN Study Point
  (12, February 2014 – 15, May 2016) as F.Sc. Physics Lecturer.
- The Educators Jallo–I
  (12, August 2017 – 16, November 2018) as Matric Physics Teacher.

Working Skills:

- Microsoft Windows and Office
- C++
- Origin
- Internet and Wien2K

International Conference:

- Poster presented on **"AB-initio calculations of $Al_{1-x}mg_xSb$. using Wien2k code Where (x = 0.0, 0.25, 0.50, 0.75 and 1.0)"** in the international conference Organized by Physics department, University of Lahore in 2016.

Research Projects:

- Research Project during **M.Sc. "AB-initio calculations of $Al_{1-x}mg_xSb$. using Wien2k code, Where (x = 0.0, 0.25, 0.50, 0.75 and 1.0)"**.

- Research Project during **M.Phil. "Influence of Ca substitution on the structural, electrical and electrical polarization of Sr based R-type hexagonal ferrites".**
