Dear Sir,

I recently came across your advertisement and I would like to submit my resume and application for the advertised post. After perusing your requirements, I feel that my qualifications and work experience perfectly match them. I hold a Master's Degree in Software Engineering as well as did Graphic Designing Course and have an experience of over 5 years in field. I am well versed in different areas of design and have successfully designed solutions for print media and websites. my key duties and responsibilities highlighted below: -

Meeting clients to discuss the objectives and requirements. Understanding the clients' needs and developing suitable concepts, estimating the amount time needed to complete the projects. Designing different types of illustrations and layouts as per brand guidelines. Produce excellent visual solutions working with different types of media, including CAD, Autodesk Maya for 3d Design and photography working alone or as part of a team as per the requirements of the project. collaborating with copywriters, photographers, printers, stylists, illustrators and account managers to give the best services to the clients.

I am comfortable with MAC OSX as well as windows. In addition, I have in-depth knowledge about almost all top designing software's, including Adobe Suits in which are Photoshop, Illustrator, Premier Pro Final Cut Pro, Cyberlink Power Director and Acrobat. Good Communications and listening skills are paramount for a graphic designer and I excel in both verbal and written communication. I am a team player to the core, but also at complete ease when working alone.

I have attached my resume as well as the link to my online portfolio for your reference. I hope you will find enough evidence of my capabilities as a Graphic Designer in there to call me for an interview.

Yours sincerely

Ali Abbas

Software Engineer & Web, Graphics Designer
