Interests

Research:	Learning through multiple resources including attending a huge number of workshops during last 20 years to cater my hunger for learning, participating in contemporary discussion Forum and Internet Surfing.
Ingenuities:	Experimenting, garaging & designing unique ideas on various event.
Computer:	Exploring maximum possibilities exploiting cognitive skills for self-reliance.
Music:	Doing music as hobby. I play drums & sing to an appropriate level.
Sports:	An energetic sports lover. Love Gym & play Tennis up to mastery standard,
Performing Arts:	I have also worked as Radio Presenter on Pakistan famous FM 103
Socialization:	I like to meet, Interact, socialize with different communities in order to know various human behaviours & socio-cultural values.
Traveling:	Feel satisfied in exploring new places. Find out new corners & take pleasure in driving to un-known places. <i>P.S. Very fortunately my better half & children are perfect support to me.</i>

What do I claim about?

As a matter of fact, I have chosen the education profession by choice and intend excelling in the same till the last. I had started my sequenced career with one of the largest organization (**Beaconhouse School System**) where I had the opportunity to learn and undergone extensive trainings and workshops over six years. During the period, I was assigned various aspects as duty successfully solely performed to the satisfaction of my seniors. I had further strengthened my potentials in **The City School** Network by co-working with a large setup and leading a team in an independent branch. Lately I was selected as Principal of **Army Public School & College** with strength of over 2000 students and managing a team of 150 teaching & non teaching staff in four branches. I have many claims and feather in my hat as all my ingenuities, innovations and

endeavours went successful in that school where I got the opportunity to lead a team, The school eventually emerges to be in the top seeded institute among **Army Public Schools & Colleges System** (APSACS). For the first time, Chairman, Corps Commander of 2 Corps Multan (Then) has very graciously awarded a cash prize for staff and students in recognition of school outstanding performance. APS had also earned overall 1st Position in SSC Examination (2006) across the country including provincial boards and overseas institutions. Working with the army managed setup / APSACS (Army Public Schools & Colleges System) helped me developing an instinct to resolve & finding out solutions to every occurrence for righteousness which is an added benefit to steer towards the required direction without wasting any time in familiarization and acquaintance for managing an educational setup. Prior to last appointment, I had been holding the responsibility/assignment at Sialkot Garrison which includes College & 'O' Level stream. There has been a visible change & achievement during my stay including fetching students' positions in Board examinations. For which I was acknowledged in writing and cash awards. I have also been a Master Trainer (*Train the trainers programme* APSACS) for conducting post graduate level educational workshop to head teachers & principals in the system at national level. My family has been in civil administration for more than 100 years in police & Army, which provides me an instinct to work and lead a team in order to formulate a good management structure. Having command over several dialects & adaptation of multilingual accents, which help me to get congenial with individuals to feel comfortable to express. I believe in providing maximum opportunities to the seekers as to refine systems in respective empirical learning. My concerted experience with renowned institutions enables me to make certain outcomes, for which you would be rightly proud of in times to come. The last assignment /prestigious task of holding, re-hashing & running the school affair with a mandate to bring at par with international standard and in consonance with ISO certification. After 1st year of last job, my institute bagged 1st Position in Board of Intermediate & Secondary Education at Intermediate level. I have further undergone in-house training of various ISO certifications by qualifying their periodic audits & requirements. I consider my achievement for producing excellent academic / administrative results and observation free compliance to four standards i.e. 9001, 14001, 45001 & 27001 verified by SGS. Which is one unique in the entire country.

Thank You.

Truly,

Mazhar Iqbal
