PERSONAL PROJECTS

Situational analyses of health and safety in the scientific research laboratories of quaid e azam campus university of Punjab.

- This study was carried out on the occupational health and safety of laboratories in University of the Punjab, Quaid-E-Azam campus. Laboratory safety is big concern in academic and R and D laboratories all around the world as well as in Pakistan. However the state of affairs of occupational health and safety practices in academics and R and D laboratories of Pakistan has not been so encouraging. The practical concern of this study is to tackle problem related to occupational health and safety and to enhance the health and safety in laboratories

Risk assessment of Siddique trade center lahore.

- We inspected siddique trade center and observed different hazard there. Due to poor maintenance and lack of safety knowledge employee are working under hazardous condition . Little attention towards the safety issue is found to be paid in implementation
